

Sikafloor® Merflex®

FLEXIBLE, WATERPROOF FLOORING

Sikafloor Merflex Elastomeric Systems

Sikafloor® Merflex flexible flooring systems are designed for areas requiring a monolithic waterproofing membrane with a durable wear surface, such as mechanical rooms. Available as either epoxy or polyurethane systems, Merflex uses true elastomeric chemistries to deliver reliable adhesion-elongation, flexibility and crack-bridging properties that provide trusted performance for many years.

Advanced Performance, Tailored to Your Needs

Sikafloor Merflex Systems are developed using low odor and environmentally-friendly, low VOC formulations. A selection of epoxy and urethane top coats are available to meet the specific demands of your unique environment. Merflex also offers a variety of slip-resistant options that allow you to deploy it in wet areas with confidence.

Reliable Waterproofing Protection for Specialized Applications

Sikafloor Merflex Systems are widely used in mechanical and equipment rooms where solid protection and long-lasting durability are essential. Merflex is also well suited as a waterproofing system for use under other Sikafloor systems. Sikafloor Merflex Systems are the perfect match for any area that requires a flexible protective surface that can accept heavier traffic.

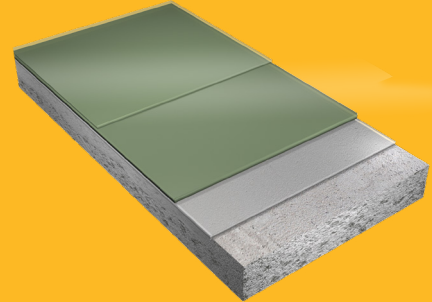

Sikafloor® Merflex®

Flexible, Waterproof Floor Systems

Smooth Elastomeric Membrane Floor Systems

Merflex-ES uses two coats of Sikafloor high solids epoxy as a flexible membrane and finished with a long-lasting epoxy top coat. It is available in 18 standard colors or can be custom pigmented to match your decor.

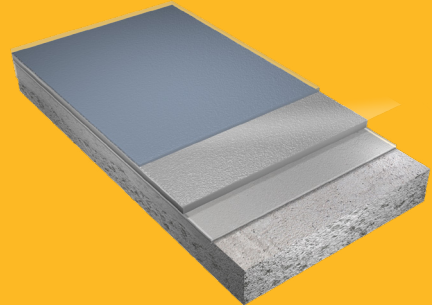

Sikafloor Merflex-PS uses a build of two coats of Sika's renowned polyurethane flexible coating sealed with a top coat of premium Sikafloor urethane. It is also available in 18 standard colors and custom colors are available

Broadcast Elastomeric Membrane Floor Systems

Sikafloor Merflex-EB uses the same quality Sikafloor epoxies as the smooth system with an additional broadcast of Sika aggregates to provide superior slip resistance on walkways or areas that are commonly wet.

Sikafloor Merflex-PB, as in its smooth counterpart, is engineered using superior polyurethane coatings and an aggregate broadcast slip resistance around machinery or areas prone to spillage.

Sikafloor Merflex Systems are designed to be easily tailored to your unique environments. Consult with a Sikafloor expert at (844) 529-7101 to build the optimum system incorporating Sika's wide variety of UV and chemically resistant top coats and wear-reducing products.

Our most current General Sales Conditions shall apply. Please consult the most current local Product Data Sheet prior to any use.
