

1/2" and 3/4" Polypropylene Expansion Board

Sika's PolyPropylene (PP) expansion board offers numerous advantages over conventional expansion board materials such as asphalt-impregnated fiberboard, pine or redwood. The new sheet form allows users to cut stock for expansion joints for slab depths up to 48" (up to 104" special order).

- Excellent compression and recovery properties
- Will not rot or deteriorate
- Tough and durable; will not break with normal handling
- Lightweight, easy to handle
- Resistant to a wide variety of chemicals and solvents
- Can be cut with conventional tools
- Will not split; can be fastened to stakes with screws or ring shank nails
- Excellent for use with **Sika's Westec EB Cap Seal and Speed Dowel[®]** joint system

Physical Properties

Property	Test Method	Typical Value
Flat Crush (4mm sheet)	TAPPI-T 825	95 psi
Resistance to Handling	ASTM D1751	Complies

Standard Sizes: 1/2" x 4' x 8'
 3/4" x 4' x 8'
