

BUILT-UP ROOFING RECOVER FELTBACK MEMBRANE ADHESIVE

Now you can bond Sikaplan Adhered Feltback Membrane directly over smooth asphalt BURs without a separation layer like hardboard or insulation adding to the cost. The adhesive can also be used with a variety of other substrates.

Sika's Feltback Membrane Adhesive is a foamable, dual-component polyurethane adhesive that can reduce installation costs by up to 20 percent when utilized on certain types of adhered re-roofing projects.

- Adhere Sikaplan Adhered Feltback Membrane directly over smooth asphalt BUR or mineral cap sheet roofs
- Generate savings of up to 20 percent when compared to installations requiring insulation or hard board
- Low VOCs
- LEED and SCAQMD compliant
- Low odor

BUILDING TRUST

COMPLIANCE AND VERSATILITY

Not only is Feltback Membrane Adhesive both LEED® and SCAQMD compliant, but it's also applied in just one step and sets up in minutes. The adhesive is available in cartridges for use with a handheld applicator and in 5-gallon box sets for use with a low-pressure pump applicator.

APPLICATION COULDN'T BE EASIER

Feltback Membrane Adhesive is applied quickly and easily to facilitate labor savings. The one-step application minimizes error due to incorrect mixing, and there is no possibility of overspray. In addition, personal protection suits are not required.

PEACE OF MIND

With Feltback Membrane Adhesive, you can be sure that you're getting a premium product. That's because it comes from a trusted source. Sika Corporation - Roofing is the world's leading thermoplastic supplier. Sika has more than 50 years of experience manufacturing membranes and was the first single-ply manufacturer to develop a membrane specifically for adhered roofing applications. Sika is the leading authority on adhered single-ply applications.

DISCOVER A BETTER ALTERNATIVE

Contact your local Sika Roofing sales representative to learn more about the savings you could experience by using Sikaplan Adhered and the Feltback Membrane Adhesive.
