**Sikagard® Hygiene High Build Flexible Wall System**

**Single Component, medium to high build flexible Wall Coating (15 mils to 48 mils)**

### Description

Sikagard Hygiene High build Flexible System is a single component, waterbased, high build, high performance low sheen hybrid acrylic coating system. It has excellent flexibility for crack isolation and blunt object impact resistance. It has very good chemical and sanitizer resistance, and excellent color stability. May be roller or spray applied allowing for best application method based on facility needs. It is LEED compliant and suitable for USDA inspected facilities. Its built-in mold inhibition package make it an excellent choice for damp and wet environments.

### Where to Use

- Pharmaceutical and cosmetic manufacturing facilities
- Commercial kitchens
- Food and beverage processing facilities
- Health care facilities
- Laboratories
- Clean rooms and sterile environments

### Advantages

- Self protective against the growth of mold, bacteria, yeast, fungi, ecoli
- Single component
- Low odor
- Suitable for hot water wash downs
- Excellent impact resistance
- Water vapor permeable
- Seamless substrate movement
- Excellent color stability
