

# Sikafloor® PurCem®

## URETHANE CEMENT FLOORING

### CRITICAL PERFORMANCE FLOORS

For areas where both cleanliness and durability are crucial, PurCem polyurethane cement flooring systems deliver absolute reliability. PurCem provides the most demanding performance characteristics including resistance to impact, abrasion, aggressive chemicals and thermal shock for institutional floors and USDA or FDA inspected facilities.

### INTRODUCING PURCEM FAST SET

The same great results as standard PurCem systems, but even faster.

- Re-coat in as little as 3 hours
- Odorless, zero VOC formulation
- Can be applied on new concrete with high moisture content concrete
- Thermal shock, impact & chemical resistant
- Slip resistant textures and decorative quartz finishes
- HACCP certified for USDA and FDA Inspected facilities

## **Sikafloor PurCem-TG** TROWEL GRADE CEMENTITIOUS URETHANE MORTAR

Sikafloor PurCem-TG is a phthalate-free, water dispersed polyurethane cementitious screed designed to provide excellent resistance to abrasion, impact, chemical attack and thermal shock.

Aggregate may be broadcast onto the wet mortar to increase surface texture and provide slip resistance.

Engineered with Sikafloor-19 NA PurCem

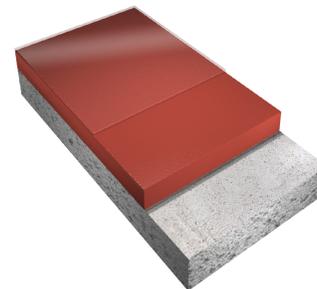

## **Sikafloor PurCem-SL+** SELF-LEVELING CEMENTITIOUS URETHANE SLURRY

### **Sikafloor PurCem-SLB+** SELF-LEVELING BROADCAST CEMENTITIOUS URETHANE SLURRY

Sikafloor PurCem-SL+ is a solid color, urethane slurry designed to provide excellent resistance to abrasion, impact, chemical attack and thermal shock.

Sikafloor PurCem-SLB+ uses solid or multi-color quartz blends broadcast onto the wet slurry to provide a decorative finish.

Engineered with Sikafloor-22 NA Purcem

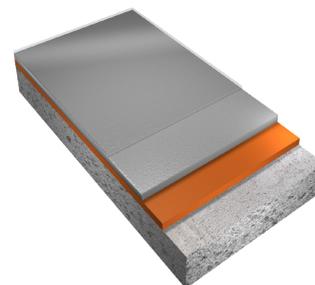

## **Sikafloor PurCem-SL** SELF-LEVELING CEMENTITIOUS URETHANE SLURRY

### **Sikafloor PurCem-SLB** SELF-LEVELING BROADCAST CEMENTITIOUS URETHANE SLURRY

Sikafloor PurCem-SL is a phthalate-free, water dispersed polyurethane cementitious screed designed to be installed as a self-leveling floor topping with an easy to clean smooth surface for general industrial applications.

Sikafloor PurCem-SLB provides medium slip resistance values and is available in five standard solid colors.

Engineered with Sikafloor-24 NA Purcem

## **Sikafloor PurCem-VG** HIGH STRENGTH CEMENTITIOUS COVING MORTAR

Sikafloor PurCem-VG is a vertical grade, solid color, water dispersed polyurethane cementitious mortar used for detailing work and coving. It has a finely textured smooth appearance with excellent resistance to impact, chemical attack and other physical aggression.

It is primarily used for vertical application of coves and cants on concrete substrates.

Engineered with Sikafloor-29 NA PurCem

## **Sikafloor PurCem-PC** HIGH BUILD CEMENTITIOUS URETHANE COATING

Sikafloor PurCem-PC is solvent free, pigmented, matte finished coating typically installed as a top coat for Sikafloor PurCem systems. It can be used as an economical standalone coating that provides excellent chemical resistance and very good durability against abrasion and mechanical wear.

Engineered with Sikafloor-31 NA PurCem
