

SIKA INTERIOR GLAZING SOLUTIONS

Sika offers a comprehensive line of sealants and assembling products for interior glass and mirror installation to meet any customer's project needs. Our range of compatible polymer-based sealants, adhesives and glass setting products is made to support various demands on your interior glazing, glass assembling, glass railing, glass partition wall and mirror mounting applications.

SILICONES

- **Sikasil®-GP** - general purpose, moisture curing, non-sagging, elastomeric silicone sealant | clear
- **Sikasil®-N Plus** - neutral curing, one-component assembly silicone sealant | translucent and pigmented
- **Sikasil® WS-305 AM** - neutral curing silicone sealant with high movement capability | various colors
- **Sikasil® SG-10** - fast neutral curing silicone assembly sealant | clear
- **Sikasil® SG-20** - high-strength, one-component, elastic and durable structural silicone sealant | black

HYBRIDS

- **Sikaflex®-510 AM 50** - isocyanate free, high movement, low modulus sealant | various colors

POLYURETHANES

- **Sikaflex®-124 Mirror Grip** - moisture curing, instant grip, flexible and compatible mirror bonding adhesive
- **SikaForce®-7780 L05** - two-component, self-leveling and fast-curing polymer-grout for quick and economical glass setting, ready-to-use in cartridges, tested with laminated glass
- **SikaForce®-735 GG** - two-component, self-leveling polymer-grout for manual and pump-supported glass setting in glass railing applications, tested with laminated glass

SIKA | VERTICAL GLASS

Sika offers a full range of solutions for insulated glass manufacturing, structural glazing and weathersealing, thereby ensuring system compatibility. With its profound competence in opaque and glass facades alike, Sika is the ideal partner for planners and applicators of all kinds on building envelopes.
