

Industrial Flooring

Introducing Sika® ComfortFloor®

INNOVATIVE
TECHNOLOGY
& SUPERIOR
PERFORMANCE

Enhancing the Indoor Experience

ComfortFloor optimizes a balance between comfort and toughness by combining softness under foot and durability. ComfortFloor is flexible enough to provide comfort in areas where personnel walk or stand for long periods of time but tough enough to stand up to high levels of pedestrian traffic, chair castors and wheeled loads. These resilient flooring solutions reduce footfall sound and horizontal noise transmission while providing an unprecedented number of advantages to building occupants.

- *Fatigue Reducing*
- *Noise Reducing*
- *Exceeds highest global standard for Indoor Air Quality*
- *Lasting Aesthetics*
- *Low Maintenance Costs*

Sika®
