Sikadur Combi® SG System

HIGH PERFORMANCE JOINT SEALING SYSTEM

DESCRIPTION

Sikadur Combi® SG System is a high performance joint sealant and crack sealing system for construction joints and cracks in concrete, masonry, and other concrete structures. It offers a reliable and cost-effective solution for providing a watertight seal while maintaining a high quality finish.

USES

Suitable for use in many different floor and wall applications, including:
- Construction joints
- Crack sealing
- Expansion joints
- Joint sealing in concrete structures
- Bridge decks
- Concrete slabs
- Masonry joints

CHARACTERISTICS / ADVANTAGES

- Advanced adhesive and crack sealant system
- High bond strength
- Good adhesion on concrete
- Easy application
- Long-term durability
- High chemical resistance
- Good water resistance
- Cures in a few hours

Sikadur Combi® SG System Specifications:

- Available in 50 g, 1 kg, and 2 kg cartridges
- Easy to apply in difficult areas
- Suitable for use in high pressure joint applications
- Advanced adhesive technology
- Excellent chemical resistance
- Fast curing time
- Wide range of applications
- Easy to use

Sikadur Combi® SG System Application:

- Apply the adhesive and crack sealant in a continuous film
- Cure the adhesive and crack sealant for a few hours
- Prime the crack and joint
- Apply Sikadur Combi® SG System
- Cure for a few hours

Sikadur Combi® SG System Details:

- Sikadur® Combi® SG System
- Sikadur® Combi® SG System Normal
- Sikadur® Combi® SG System Rapid
- Sikadur® Combi® SG System® DW
