

# Sarnafil® TEXTURED MEMBRANE

Sika pioneered the use of PVC for roofing applications in 1962 by developing Sarnafil, the world's first thermoplastic membrane reinforced with fabric. Sarnafil membranes are now available with texture, providing the building owner with an additional surface option. Textured membrane can be mechanically attached or adhered.

- Offered in 60 mil Sarnafil® G410 and S327 bareback membranes in Gray
- Gray color allows for use of standard Light Gray pre-fabricated flashings, details and clad metal
- Can be used as the primary roof membrane or second layer over an existing Sarnafil® or Sikaplan® system
- Eligible for Sika's System Warranty up to 20 years
- Part of Sika's Sarnafil Thickness Guarantee program
