ComfortFloor Products are available in a variety of solid base colors for unlimited design freedom. Because of limitations of process color printing, the color samples contained herein are close approximations of actual colors and should not be relied upon for true color. Colors show approximate tone without any texture. Final color matching should be made with an actual sample of the product, color and texture to be used. Gloss level will vary depending on product used.

Custom colors are available. For use with compatible Sikafloor® and Sika® ComfortFloor products only. Please consult a Sikafloor Representative for further information and pricing.
