

SYSTEM DATA SHEET

PAREX® ACF ICF

Acritical Coatings & Finishes for Insulated Concrete Forms

PRODUCT DESCRIPTION

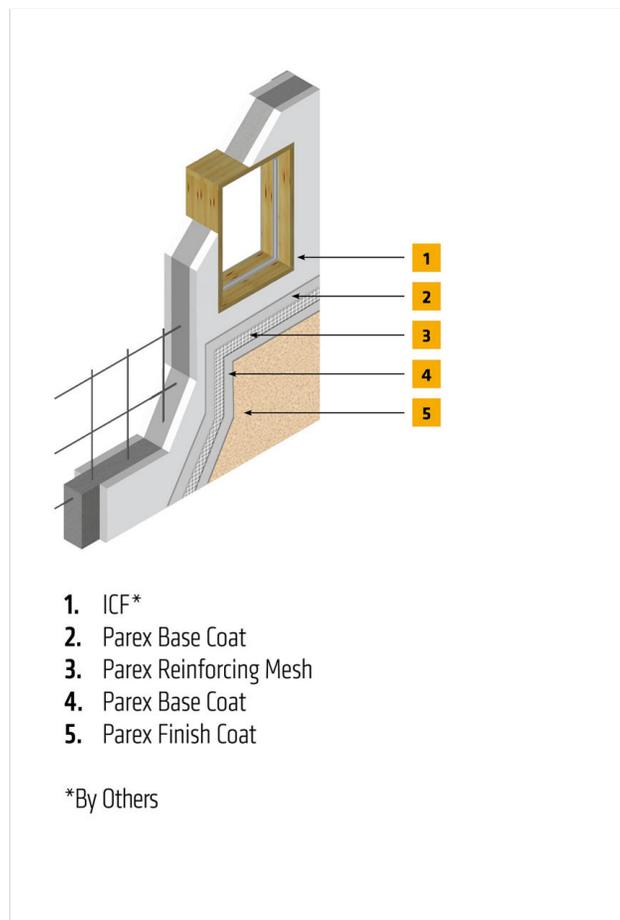

PAREX® ACF ICF finish systems are for use with highly energy efficient foam block assemblies. Parex ACF ICF is the perfect complement to ICF systems to provide a tough and durable lamina to be applied over the ICF foam blocks. Parex ACF ICF can be used to highlight the different options available to provide an ICF system with a durable lamina with an attractive acrylic finish and a variety of textures.

USES

PAREX® ACF ICF application of the Parex Architectural Finish System over insulating concrete form walls.

CHARACTERISTICS / ADVANTAGES

- Add aesthetics to ICF walls
- Simple finish system composition
- High traffic resistance options

SYSTEM INFORMATION

Compatibility

Material substitution will adversely affect system performance and will void all warranty coverage unless approved in writing by Sika Facades Technical Service Team.

APPLICATION INFORMATION

Substrates

Acceptable Substrates:
Insulating concrete form walls

BASIS OF PRODUCT DATA

Results may differ based upon statistical variations depending upon mixing methods and equipment, temperature, application methods, test methods, actual site conditions and curing conditions.

LIMITATIONS

- **Users must read the most current Product Data Sheets for each system component before using any products and follow all application instructions and cautions.**
- For use on above grade vertical walls. The finish system must terminate a minimum of 6" (152 mm) above grade.
- Additives are not permitted for any product unless approved in writing by Sika Facades Technical Services.
- All products must be installed at minimum 40 °F (4 °C) ambient and substrate temperatures unless otherwise noted on specific Product Data Sheets.
- Protect all work from precipitation for at least 24-hours after application.
- This system is not designed for horizontal applications. Always maintain a minimum slope of 1:2 up to a maximum width of 12".
- All substrates must be clean, dry and sound without planar irregularities greater than 1/4" per 10' (6 mm per 3 m).
- Use of SikaWall Strong 15 or Ultra HI 20 Reinforcing Mesh at ground floor and on other locations where high traffic is expected is recommended.
- Contact Sika Facades' Technical Service Department at 1-800-226-2424 for additional information.

ENVIRONMENTAL, HEALTH AND SAFETY

For further information and advice regarding transportation, handling, storage and disposal of chemical products, user should refer to the actual Safety Data Sheets containing physical, environmental, toxicological and other safety related data. User must read the current actual Safety Data Sheets before using any products. In case of an emergency, call CHEMTREC at 1-800-424-9300, International 703-527-3887.

LEGAL DISCLAIMER

- **KEEP CONTAINER TIGHTLY CLOSED**
