

SikaBiresin® AP112

(Formerly Adtech Marine P-11 TYPE II)

POLYESTER FILLER - THIXOTROPIC, FIBER FILLED

Quick Notes

PRODUCT POSITION STATEMENT

SikaBiresin® AP112 is a smooth thixotropic paste system which exhibits easy mixing and stable application qualities.

PRODUCT TECHNOLOGY

- Two-component (polyester paste + BPO hardener)

PRODUCT BENEFITS

- Excellent adhesive qualities
- Can be readily machined
- Accepts all types of finishes with “no bleed out”
- Low moisture characteristics
- High impact strength
- Excellent heat and cold resistance
- High degree of chemical resistance
- Can be applied in varying degrees of thickness with minimal shrinkage

APPLICATION

- Structural repairs
- FRP, metal and wood bonding

BUILDING TRUST
