SikaBond®-T100

ALL-IN-ONE HYBRID ADHESIVE FOR WOOD FLOORING

- Easily cleans off prefinished floors before and after cure
- UNLIMITED subfloor moisture vapor transmission
- No moisture testing required - a dry to touch substrate is the only requirement
- Excellent Green Grab with a cured tenacious bond
- Permanently elastic - allows planks to expand and contract without damage to the adhesive
- Meets local IIC and STC sound reduction codes

Packaging available
4 gal. Pail (15.14L)
SikaBond®-T100
ALL-IN-ONE HYBRID ADHESIVE FOR WOOD FLOORING

WHERE TO USE
SikaBond-T100 may be used for solid and engineered wood floors (strips, longstrips, planks, panels, boards), mosaic parquet, industrial parquet, wood paving (residential) as well as chip boards and plywood. Once cured, Sikabond-T100 will generate a super strong bond to a variety of substrates for glue down installations and at the same time form a membrane which reduces moisture vapor transmission from the subfloor and sound reduction membrane.

FEATURES AND BENEFITS
- Unlimited subfloor moisture transmission
- Easily cleans off prefinished floors before and after cure
- Contains no water, solvent or isocyanates
- Low moisture vapor permeability
- No moisture testing required - a dry to touch substrate is the only requirement
- Meets local IIC and STC sound reduction codes
- Crack Bridging
- Very easy to spread
- Low odor
- Advanced Hybrid Technology
- Excellent green grab
- Permanently elastic - allows planks to expand and contract without damage to the adhesive
- Tenacious Bonding

NOTE: Always refer to Current Product data Sheet and SDS for detailed performance specifications prior to use.

TYPICAL DATA (Material and curing conditions @ 73°F (23°C) and 50% R.H.)
