

Sarnafil®

ROOFPOINT™ REGISTERED PROJECT

SuperTarget Store Retail Store Olathe, Kansas

PROJECT DESCRIPTION

This 175,000 square foot reroofing project sets a new benchmark for sustainable retail roof design and installation. The existing 175,000sqft PVC roofing membrane was recycled, and a reflective, energy efficient, and highly durable roofing system was installed using RhinoBond. This innovative roof fastening technology virtually eliminates roof seams at fastening locations and allows for effective removal and recycling of the roofing membrane at the end of its service life.

ABOUT ROOFPOINT

RoofPoint is a voluntary, consensus-based green rating system developed by the Center for Environmental Innovation in Roofing to provide a means for roofing contractors, building managers and designers to select roof systems based on long-term energy and environmental benefits. RoofPoint provides a simple, transparent and professional measure to validate that new and replacement roof systems are designed, installed and maintained in accordance with the most current sustainable best practices.

PROJECT INFORMATION

BUILDING OWNER: TARGET CORPORATION

ROOFING CONTRACTOR: IMPERIAL ROOF SYSTEMS COMPANY

ROOF SYSTEM MANUFACTURER: SIKA SARNAFIL

YEAR COMPLETED: APR 2012

ROOF SIZE: 175,000 SQ. FT.

PROJECT SUBMITTED BY: STEPHEN BURKE
