## TARGET MARKET ROOFING

BUILDING TRUST

**Subject: Acceptable Sealants**

**23-01**

Sika Corporation – Roofing recommends the use of Sikaflex®-1a polyurethane sealant for use in various flashing details. Alternative polyurethane sealants may be used if Sikaflex-1a is not available. The following polyurethane sealants are acceptable for use with Sarnafil® and Sikaplan® roofing membranes.

- Sikaflex® Construction Sealant by Sika Corporation
- MasterSeal® NP 1 by Master Builders Solutions
- Vulkem® 116 by Tremco

Please note that Sika's acceptance is based on the adhesion and membrane compatibility characteristics of the sealant.

Sealants are a maintenance item and are not covered under the Sika Corporation – Roofing warranty.
