PRODUCT CATALOG
RESIDENTIAL REFURBISHMENT, SEALING & BONDING
Sika’s success and excellent reputation are based on its long lasting tradition of innovation. For over 100 years, Sika products have been approved and specified on the world’s largest jobsites for their superior quality and durability. Sika is the name trusted by the Pros.

Believing that every customer deserves the best, Sika Corporation offers its line of professional products to home improvement stores, wholesalers and select retailers throughout the U.S. Sika’s PRO Select retail product line includes specialty sealants, adhesives, waterproofing sealers, grouts, flooring levelers and admixtures. Whether you are working on your home improvement project or your commercial store front, Sika has the solutions and products you need to ensure that you fix it right and “Fix it Once”!

Special Note: Actual colors may vary from colors represented in this catalog. Use cured samples for proper color matching.
Sikaflex® Self-Leveling Sealant
One-component polyurethane for horizontal applications

Fast curing, self leveling PRO grade polyurethane elastic sealant for sealing expansion joints, gaps and moving cracks in horizontal concrete and masonry. Perfect for driveways, sidewalks, etc.

Advantages

- No tooling required! Levels itself
- Water immersible after cure
- Able to bridge gaps up to 2 in. wide
- Paintable, stainable, sandable
- Flexible and durable
- Water and weather resistant

Colors:
- Gray
- Sandstone

Sikaflex® Construction Sealant
One-component polyurethane for sealing joints and gaps

One-component, polyurethane sealant used to seal joints and gaps, especially around window and door perimeters.

Advantages

- Permanently elastic
- Vertical/overhead applications
- Potable water approved
- Paintable, stainable, sandable
- Waterproof and water immersible after cure
- Superior adhesion and durability

Colors:
- White
- Capitol Tan

Sikaflex® Construction Sealant | Aluminum Gray | 90629 | 033 886 000 299
Neutral cure silicone for sealing expansion and control joints. Ideal for window and door perimeters, skylights, conventional glazing, and other building components.

**Sikasil® Builders’ Silicone**
Neutral cure, one-component, building silicone

**Advantages**
- High heat and UV resistance
- Bonds to glass, concrete, metal, aluminum, tile and more
- Vertical, horizontal and overhead applications
- Low odor
- Water and weather resistant
- Clear to easily blend with any substrate

**Sikaflex® Crack Flex Sealant**
One-component, textured polyurethane for sealing cracks in horizontal concrete and masonry surfaces. Ideal for sidewalks, garages, patios, decks, etc.

**Advantages**
- For cracks up to 1” wide
- Elastic technology allows for crack movement
- Gradually self levels into cracks and expansion joints
- Textured for added density and textured finish
- Waterproof and water immersible after cure
- Superior durability in all weather conditions

Sikaflex® Concrete Fix
One-component, polyurethane sealant

A moisture-cured, 1-component, polyurethane-based, non-sag elastomeric sealant. Meets Federal specification TT-S-00230C, Type II. Meets ASTM C-920, Type S, Grade NS.

Advantages:
- Non-sag & non-staining
- For vertical, horizontal and overhead applications
- Water immiscible after cure
- Paintable, stainable, and sandable after cure
- Shrink and crack resistant
- Excellent resistance to aging and weathering
- Exceptional cut and tear resistance

Sikaflex® Mortar Fix
One-component, textured, polyurethane sealant

A moisture-cured, 1-component, polyurethane-based, non-sag elastomeric sealant capable of ±25% joint movement. Ideal for weatherproofing of joints between brickwork, blockwork, masonry, concrete or metal frames.

Advantages:
- Permanently elastic, allowing cracks to expand and contract
- Textured for mortar and stucco like appearance
- Shrink and crack resistant
- Paintable, stainable, and sandable after cure
- Waterproof & water immiscible after cure
- Super adhesion and durability
- Hides imperfections unlike smooth sealants

Color:
- Textured Gray

Sikadur® Crack Fix
Low-viscosity, high-strength epoxy sealing system

5X stronger than concrete once cured
Deep, penetrating and tenacious bonding of cracks in structural concrete
Easy application, Part A & B mix in nozzle
Fast initial set; rapid gain to ultimate strengths
Welds cracks in horizontal applications

Advantages

A 2-component, moisture-tolerant, low-viscosity, high-strength, multipurpose, epoxy resin adhesive for sealing non-moving cracks in structural concrete. It conforms to the current ASTM C-881 and AASHTO M-235 specifications.

Sikadur® Crack Fix
10 oz cartridge

- Color: Clear Amber
- Name: Sikadur® Crack Fix
- Size: 10 oz
- SIKA SKU #: 107655
- UPC #: 033 886 002 608

Sika® Backer Rod
3/4” closed cell backer rod

Easy to apply
Highly flexible and compressible
Will not absorb water
Prevents 3 sided adhesion
Controls sealant depth for window, door and expansion joints

Advantages

3/4” closed cell backer rod used to partially fill deep cracks and joints before applying sealant.

Sika® Backer Rod
3/4 in. x 20’ long

- Color: Gray
- Name: Sika® Backer Rod

SikaBond® Hardscape Adhesive
One-component, polyurethane adhesive

Advantages
- Non-sag
- For vertical and horizontal applications
- Water immersible after cure
- Paintable, stainable, sandable
- Shrink and crack resistant
- Excellent resistance to aging and weathering
- Resistant to freeze/thaw cycles

Color: Gray

SikaBond® Ultimate Grab
One-component, instant grab polyurethane adhesive

Advantages
- Powerful instant grab
- Elastic to allow for natural movement of substrates
- VOC compliant in all 50 states
- Permanently water immersible after cure
- Superior adhesion to a large variety of substrates
- Repositionable up to 30 minutes*
- Non-sag
- For vertical and horizontal applications
- Water immersible after cure
- Paintable, stainable, sandable
- Shrink and crack resistant
- Excellent resistance to aging and weathering
- Resistant to freeze/thaw cycles

*Object to be bonded must not lose contact with the substrate being bonded to. Results may vary depending on temperature and relative humidity.
BONDING AND ANCHORING

Sika Bond® Construction Adhesive
One part advanced polyurethane, elastomeric adhesive

A one-component, gun-grade, adhesive and sealing compound of permanent elasticity. This dual-purpose material is based on a special moisture-cured polyurethane with an accelerated curing time.

Advantages
- Permanently elastic
- Water immersible after cure
- Bonds pavers, caps, roofing, concrete, wood, tile, aluminum, foam, mirrors and more
- Paintable, stainable and sandable after cure
- Waterproof after cure

Sika MaxTack® Fast Grab Adhesive
Interior, water-based, fast grab adhesive

A one-component, fast grab, high strength, water-based adhesive used for interior building applications.

Advantages
- High strength and fast green grab
- Durable
- Bonds to most substrates, including concrete, mortar, wood, etc.
- Eliminates the need for nails and screws
- Low odor
- Easy clean up

Color: Cream
Silka® AnchorFix-1
High performance, two component adhesive anchoring system

Fast-setting anchoring adhesive for everyday anchoring projects such as railing installations, setting rebar, bolts, dowels, pins and more into concrete and masonry.

Advantages
- Can be used in subfreezing temperatures
- High strength for vertical and horizontal applications
- Part A & B self mixes in nozzle for a FULL 10 oz. of material
- Sets in minutes in warmer temperatures
- For use with standard caulk gun
- Packaged with 2 static mixing nozzles
- Extended working time when needed

Name | Size | Sika SKU # | UPC # |
---|---|---|---|
Silka® AnchorFix-1 Anchoring Adhesive | 10.1 oz. | 112729 | 033 886 001 380 |

Color: Gray

Sika® AnchorFix-2
High performance, two component adhesive anchoring system

A super strong, two-component anchoring adhesive that exhibits high load capacities and can be used in heavy duty anchoring projects.

Advantages
- Can be used in subfreezing temperatures
- High strength for vertical and horizontal applications & sets in minutes
- Self mixes in nozzle for a FULL 10 oz. of material
- For use with standard caulk gun & packaged with 2 static mixing nozzles
- ANSI/NSF 61 Certified by UL
- ESR to AC308 by ICC-ES for threaded bars only
- ESR to AC308 by IAPMO-UES for threaded bars only

Color: Gray
Sikagard® High Gloss Sealer
Acrylic surface sealer

An acrylic sealer for concrete and masonry that dries to a clear, glossy finish and provides protection against moisture and mild corrosives. Ideal for retaining walls.

Advantages
- Roll, brush or spray apply
- Improves dirt resistance
- Protects from mild corrosives
- Protects from de-icing salts
- Adds sheen to surface appearance
- Keeps substrates looking new longer

Name | Size | SIKA SKU | UPC #
---|---|---|---
Sikagard® High Gloss Sealer | 1 gal. | 107698 | 033 886 002 493

Color: Applies White (dries Clear)

Sikagard® Natural Look Sealer
Penetrating water-repellent sealer

A commercial grade water-repellent sealer that penetrates an absorbent surface to form a seal against the elements, such as water and chlorides. It can be used on concrete, masonry, mortar, brick, and stone. Ideal for patios, retaining walls, pavers, etc.

Advantages
- For vertical and horizontal applications
- Will not alter surface appearance
- Protects from mild corrosives
- Improves dirt resistance
- Resists the growth of fungi and moss
- Keeps substrates looking new longer

Name | Size | SIKA SKU | UPC #
---|---|---|---
Sikagard® Natural Look Sealer | 1 gal. | 107699 | 033 886 002 509

Color: Applies White (dries Clear)
SikaGrout® 212
High performance, cementitious grout

A non-shrink, high performance, cementitious grout with a special blend of shrinkage reducing and plasticizing/water reducing agents that compensate for shrinkage in both the plastic and hardened states.

Advantages
- Mix manually or mechanically
- Contains no chloride; Non-metallic, will not stain or rust
- Multiple fluidity levels with one product
- Low heat build up
- Resistant to oil and water & superior freeze/thaw resistance
- USDA approved
- Meets ASTM C-1107 (Grade C) - Meets CRD C-621

Name | Color | SIKAC SKU # | UPC #
--- | --- | --- | ---

REFURBISHMENT

Latex bonding adhesive and acrylic fortifier for bonding new concrete to old and improving adhesion of concrete or mortar.

Advantages
- No wait time before applying top coat
- Improves resistance to freeze/thaw cycles
- Spray, roll or brush on
- Improves adhesion characteristics
- Easy to mix and dose
- Does not produce a vapor barrier
- USDA approved

REFURBISHMENT
**Sika® Level-315**  
Very rapid hardening and durable, cementitious, self-leveling underlayment for use at 1/25 to 2” thickness (in localized areas)  

**Advantages**  
- Zero VOC, low odor, fast and easy installation  
- Highly fluid and self-leveling  
- Levels new and renovates old floors  
- Rapid drying; open to foot traffic in 4 hrs. at 73°F  
- Excellent underlay for tiles, sheet products and wood floor bonding systems  
- Floor coverings (carpet, vinyl, PVC, rubber, engineered wood flooring) can be installed after 6 hours  

**Name** Sika® Level -315  
**Size** 50 lb. bag  
**SIKA SKU #** 188053  
**UPC #** 033 886 013 116  

**Color:** Concrete Gray

---

**Sika® Level-315**  
A one-component, cementitious underlayment for interior concrete, cementitious, wood, and tiled substrates. It can be applied manually or by pump to produce a self-leveling, rapid-setting, flat and economical substrate prior to the application of a final floor finish. Typical application thickness is 1/25 to 2” inch (1 to 50 mm) in localized areas.

**Advantages**  
- Manual or pumpable application, fast and easy installation  
- Zero VOC and low odor  
- Highly fluid and self-leveling  
- Levels new and renovates old floors  
- Rapid drying; open to foot traffic in 2-3 hrs. at 73°F  
- Excellent underlay for tiles, sheet products and wood floor bonding systems  
- Floor coverings (carpet, vinyl, PVC, rubber, engineered wood flooring) can be installed after 1-3 days

**Name** Sika® Level-125  
**Size** 50 lb. bag

**SIKA SKU #** 188051  
**UPC #** 033 886 013 109  

**Color:** Gray

**Sika® Level-02 Primer**

Epoxy primer for use on difficult-to-adhere-to substrates

- Ready to mix, pre-proportioned components
- Easy to use 1:1 by volume, resin to hardener ratio
- Solvent-free
- Prevents water loss from underlayment into substrate on absorbent subfloors
- Extended pot life and open time
- Achieves good bond values, even on nonporous and smooth surfaces
- Effectively adheres cement underlays in a single, highly productive operation

**Advantages**

- Ready to mix, pre-proportioned components
- Easy to use 1:1 by volume, resin to hardener ratio
- Solvent-free
- Prevents water loss from underlayment into substrate on absorbent subfloors
- Extended pot life and open time
- Achieves good bond values, even on nonporous and smooth surfaces
- Effectively adheres cement underlays in a single, highly productive operation

**Sika® Level-01 Primer**

Concrete primer and sealer for use with Sika Level-125 and -315

- Solvent-free
- Ready-to-use, no dilution required
- Penetrates substrate to reduce outgassing and formation of bubbles in underlayment
- Prevents water loss from the underlayment into the substrate
- Quick drying and fast film formation to increase productivity
- Excellent bond values at various application temperatures
- Effectively seals concrete surfaces economically

**Advantages**

- Solvent-free
- Ready-to-use, no dilution required
- Penetrates substrate to reduce outgassing and formation of bubbles in underlayment
- Prevents water loss from the underlayment into the substrate

**Sika® Level-02 Primer**

Concrete primer and sealer for use with Sika Level-125 and -315

- A two-part, water-dispersed, epoxy resin based solution used to prime typically problematic or smooth floor surfaces prior to the application of Sika® Level-125 and Sika® Level-315 underlayments.

- Advances
  - Ready to mix, pre-proportioned components
  - Easy to use 1:1 by volume, resin to hardener ratio
  - Solvent-free
  - Prevents water loss from underlayment into substrate on absorbent subfloors
  - Extended pot life and open time
  - Achieves good bond values, even on nonporous and smooth surfaces
  - Effectively adheres cement underlays in a single, highly productive operation

Sikacryl® Ready-Mix Concrete Patch

Acrylic-based, textured concrete patch for repairing spalls and cracks

An easy to use, acrylic-based, textured concrete patch for repairing small spalls and cracks in concrete and masonry. It cures to a tough and durable finish and can be used on concrete and masonry surfaces, such as sidewalks, steps, balconies, foundations, patios, and more.

Advantages

- For vertical and horizontal surfaces
- Textured to blend with concrete
- Easy water clean up
- Good adhesion
- Simple application
- Shrink and crack resistant
- VOC Compliant in all 50 states

Color:

- Light Gray

Name | Size | Sika SKU # | UPC

Sikacryl® Ready-Mix Concrete Patch | 1 qt. | 472189 | 033 886 079 907
WOOD FLOOR BONDING
SikaBond®-T55
One component polyurethane adhesive for wood flooring

A low VOC, one-component, moisture-cured, super strong polyurethane adhesive for full surface wood floor bonding and ceramic tiles. SikaBond®-T55 may be used for solid and engineered wood floors (strips, longstrips, planks, panels, boards), mosaic parquet, industrial parquet, and wood paving (residential) as well as for bonding ceramic tiles to concrete, mortar, and old existing tiles.

Advantages
- 400% elongation
- Superior trowelability
- Suitable for in-floor radiant heat installation & footfall sound-dampening adhesive
- Fast curing
- Bonds solid wood up to 8” wide and engineered planks up to 14” wide directly to concrete
- Eliminates sleepers and plywood over concrete and gypsum substrates

SikaBond®-T35
Trowel-applied, polyurethane wood flooring adhesive

A one-component, moisture cured polyurethane adhesive for full surface bonding of wood flooring. SikaBond®-T35 will tenaciously bond wood to most surfaces, including concrete, plywood, and level and patch underlayments that have been properly prepared. SikaBond-T35 can be used to bond all engineered, solid plank flat milled, shorts up to max 3/4 in. thick, including bamboo, cork and parquet hardwood flooring designed by the hardwood manufacturer.

Advantages
- 170% elongation
- Low VOC & Low odor
- Excellent workability
- Fast curing
- Suitable for in-floor radiant heat installation & for common types of wood flooring
- Crack-bridging

Color: Tan
Sika® Primer MB Kit
Primer and moisture barrier for SikaBond® adhesives

Advantages
- Solvent-free (100% solids)
- Moisture regulator
- Easy roller applied application that reduces adhesive consumption
- Suitable for use on floors with in-flooring heating
- Excellent penetration and stabilization of the substrate
- Can be used on floating floors

Color:
Blue tint

SikaBond®-T21
All-in-One wood flooring adhesive, moisture vapor and sound reduction membrane

Advantages
- Permanently elastic: 270% elongation
- Excellent green grab
- Low odor
- Especially good with problematic woods such as beech and bamboo
- Bonds solid wood flooring up to 3/4” thick and 8” wide and engineered planks up to 14” wide directly to concrete

Color:
Light Tan

The Sika AcouBond System incorporates Direct Bond Technology with acoustic performance. The Sika® AcouBond-System consists of SikaLayer®-03, a 1/8” (3 mm) proprietary specially slotted foam mat, and SikaBond®-T53, a unique permanently elastic, superstrong, sound dampening adhesive that forms a tenacious bond to wood flooring, plywood subfloors, concrete and other common subfloor materials.

**Advantages**

- **Independently tested to – IIC 59 and STC 60 & Independently tested to – FIIC 59 and FSTC 59**
- **Can reduce overall installation costs up to 30%; easy to install**
- **Structurally bonds wood flooring to subfloor. Suitable for bonding wood floors directly onto old ceramic tiles**
- **SikaBond-T53 bonds solid wood flooring up to 8 in. (18 cm) wide and engineered planks up to 14 in. (36 cm) wide directly to concrete substrates. No limitations on maximum wood length.**
- **Eliminates the extensive labor of installing cork underlayments**
- **No need for sleepers and plywood over concrete- and gypsum-based subfloors**
- **Reduces stress on the substrate**
- **Innovative walk-on work method**
