

Sika® Stabilizer-180 RCA

RETURNED CONCRETE ADMIXTURE

BUILDING TRUST

Sika® Stabilizer-180 RCA

POWDERED ADMIXTURE FOR RETURNED CONCRETE

Address the challenge of concrete returned to the yard by using Sika® Stabilizer-180 RCA, a fast-acting powdered admixture used to alter the properties of plastic concrete resulting in a very low strength granular material that is easy to process.

PRODUCT HIGHLIGHTS

- EASY Pre-packaged doses in 1.0 lb water-soluble bags
- ROBUST - effective in all cement types & mix designs
- FAST acting

PRODUCER BENEFITS

- SAVE TIME & MONEY by eliminating time intensive and expensive returned concrete processing
- INCREASE EFFICIENCY by expediting truck turnaround (ready for next load in minutes)
- Reduce energy intensive crushing & processing to REDUCE OVERALL CARBON FOOTPRINT
- DIVERT WASTE from landfill
- Create a RECYCLED PRODUCT that can be re-used as aggregate or re-sold as road base/back fill
- IMPROVE SAFETY & LOWER RISK through management of low strength material vs. hardened concrete
- REDUCE WEAR & TEAR on equipment by handling low strength materials
