

SikaWall® 9000

Permalath 1000

A superior alternative to metal lath and stucco netting, rust-free and easy-to-handle fiberglass stucco lath

BUILDING TRUST

Superior Savings & Safer Handling

SikaWall®-9000 Permalath 1000 is designed for use with one and three coat 1/2" to 7/8" thick stucco systems. It may also be used as a mortar base for light-weight architectural facing products such as stone veneer.

You can cut your labor cost by as much as 43% (33% for stucco netting) if you choose SikaWall®-9000 Permalath 1000 instead of metal lath. Tested against metal lath and stucco netting, patented SikaWall®-9000 Permalath 1000 has been proven stronger, lighter and much easier to handle

Easy to handle

No Sharp Edges
Light weight-487 sq. feet only 31 LBS

Lies Flat

Easy cutting and placement
Won't coil back on itself

Non-Directional

Apply Vertically or horizontally
Reduces material waste

PRODUCT BENEFITS

- Non-metallic; Will not rust; ideal for coastal applications
- Pliable, with no sharp edges; Easier and safer to handle and cut
- Non-directional; Can be applied vertically or horizontally
- Wide rolls; Fewer overlaps yields better coverage
- Three-dimensional profile; Self furring; excellent mechanical key using traditional fastening procedures
- Alkali resistant; Long-term durability and performance
- Packaged in light-weight rolls; Less expensive and easier to transport and store
