

Sika MonoTop[®]-4500 Geo Hybrid

A ONE-COMPONENT, PRE-PACKAGED, READY-TO-USE, FIBER REINFORCED, HIGH STRENGTH, SHRINKAGE-COMPENSATED HYBRID GEOPOLYMER MORTAR

- Structural repair material for large diameter pipes, culvers, tunnels, manholes, water & wastewater treatment plants, and industrial plants
- For vertical and overhead surfaces
- On grade, above grade, and below grade on concrete and mortar

BUILDING TRUST

Sika MonoTop®-4500 Geo Hybrid

DESCRIPTION

A one-component, pre-packaged, ready-to-use, fiber reinforced, high strength, shrinkage-compensated hybrid geopolymer mortar. Formulated for application by trowel or low-pressure spray. It is designed especially for the repair of vertical and overhead surfaces in highly corrosive environments.

FEATURES:

- Ready-for-use, one-component material
- Easy to use; just add water
- Increased resistance to acids and other highly caustic environments
- Sprayable system
- Superior workability
- Can be troweled and screeded after application
- Superior abrasion resistance over conventional Portland cement mortar
- High bond strength ensures superior adhesion
- Compatible with coefficient of thermal expansion of concrete
- Good freeze/thaw resistance
- High early strengths
- Very low shrinkage
- Fiber reinforced
