

# SikaMix® AE -3

**INTEGRAL WATER REPELLING ADMIXTURE**

**BUILDING TRUST**

SikaMix® AE -3 is an integral water-repellent admixture designed to reduce water penetration and absorption in concrete. By providing comprehensive moisture protection from within, SikaMix® AE-3 helps safeguard exterior concrete walls and flatwork against damage from freeze-thaw cycles, sulfate attack, and carbonation. This uniform, long-lasting protection throughout the depth of the concrete leads to an extended service life of the treated structure.

## **PERFORMANCE HIGHLIGHTS:**

- Provides consistent & continuous protection vs. topical sealers that can wear off
- Provides water repellency through the full depth of control joints
- Compatible with all cements (Type 1L, PLC's, OPC) & SCM's
- Immediate reduction in efflorescence
- Reduced water and chloride penetration
- Improved freeze-thaw durability & de-icing resistance
- Extended service life vs. untreated concrete
- Improved vibrancy of colored concrete

# SikaMix® AE -3

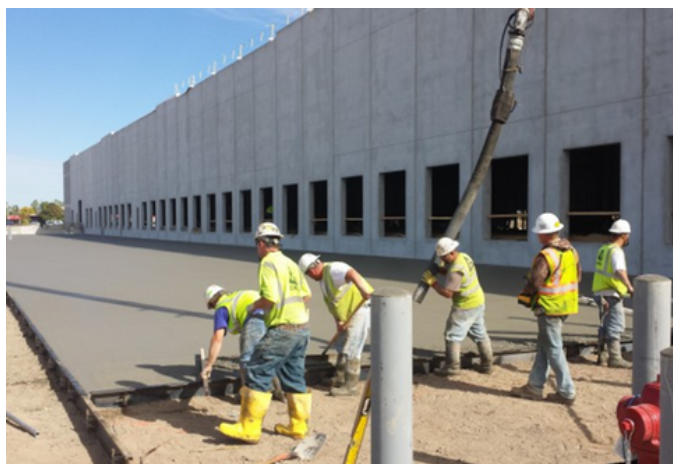

**INTEGRAL WATER REPELLING ADMIXTURE**

**BUILDING TRUST**

## **Easier Placement, Lower Risk for Contractors:**

- Eliminates inconsistent broom work, no more peeling/ tearing
- Eliminates challenges of big temperature swings during placement
- No tiger striping
- Minimizes risk of rework, reduces costly call backs and warranty claims
- Reduces cost from material, labor, equipment, and waste vs. topical sealing
- Streamlines construction schedule by eliminating additional waterproofing steps after placement

## **Improved Concrete Performance for Homeowners:**

- Immediate built-in protection that lasts
- Reduces chances of “pop-outs” and “pitting” from Freezing & Thawing cycles
- Reduces chances of flaking or scaling on surface from deicing chemicals
- Reduces maintenance and lowers long-term costs

## **APPLICATIONS:**

- Driveways
- Car Washes
- Commercial Flatwork
- Sidewalks
- Concrete Patios
