SC 155, 175, 180, 390
EXTRUDABLE EPOXY MODELING PASTE
SC 155, 175, 180, 390

Extrudable epoxy modeling paste with 1” vertical hang and very good surface aspect used for large seamless models, mock-ups, master plugs, and composite tooling.

Main Features
- Single layer application (25-40 mins)
- Dimensional accuracy and stability
- Low density
- Low exotherm
- Seamless surface - no bond lines
- Minimal waste
- Easy to machine
- Creates chips, no dust
- Can be machined within 24 hours
- Low toxicity
- Reduced time in mold production

Markets
- Aerospace
- Architectural
- Automotive
- Marine
- Renewable Energy
- Transportation
- Wind
