TECHNICAL BULLETIN

TARGET MARKET ROOFING & WATERPROOFING

BUILDING TRUST

Subject: Discontinued Products - Sika® Joint Tape SA Primer & Sika® Reemat Standard 25-01

Sikalastic® liquid applied membranes has discontinued Sika® Reemat Standard and will only use Sika® Reemat Premium with all Reemat reinforced systems. Product data sheets have all been updated for resin thickness and warranty requirement. This change only affects 10 year warranty system requirements. Current PDS are available online at the Sika Roofing/Waterproofing website.

Sika® Joint Tape SA Primer is also discontinued. This primer is obsolete for use with Sika® Joint Tape SA. For liquid applied membrane systems, substrates are already primed with substrate appropriate Sikalastic primers prior to the joint tape application. For all other installations a clean and dry surface free from debris; primer is not necessary.

Instances where appropriate substrates are in question, please reach out to your local Technical Field Services Representative.
