Sika Roofing 2024 Contractor Projects of the Year Submission Form

ROOFING and WATERPROOFING CONTRACTORS – To submit your project or projects, fill out the form below or [online](#). If you have questions, contact Emma Houston via email houston.emma@us.sika.com

- RULES:**
- Projects must include a Sika Roofing or Waterproofing system (Sikalastic, Sarnafil, Sikaplan, Hydrotech). Installation of the system must have been completed between December 4, 2023 and November 29, 2024 to be considered for this year's contest. For multiple entries, please use more than one form.
 - All entries MUST submit the form below or online and also contain the following:
 - ▣ 250 to 700 word project description - attach separate word document (see helpful hints at bottom of page)
 - ▣ Photos - Representative of building and work performed (please make sure photos are high resolution)
 - ▣ Videos (optional but recommended) - (Let us see your building in action!)

HELPFUL HINTS: Project Description – Pay special attention to the project description. This is the most important part of your application, where you can go into detail about the challenges of the project. For example, how did your company's exceptional workmanship, creative problem solving, unique skills, etc. make this project turn out well? How were you able to meet unexpected challenges/demands from the owner/architect? What did your company do to showcase your superior skill on this job? How did you provide your building owner with a sustainable project, reduce waste by recycling, strictly adhere to OSHA rules, provide the owner with a long lasting solution, etc.? Other possible points to highlight may include unusual design, complexity, shape of the building. And most importantly, why should this project be considered for a Sika Sarnafil Project of the Year award? Photos - Completed project photo required. In-progress photos and videos also encouraged.
