

HOW-TO GUIDE

SikaSeal® Insulation Seam Tape

TRANSPARENT • HAND-TEARABLE • UV STABLE • MULTIPURPOSE

MATERIALS:

- Safety glasses and gloves
- Roll of SikaSeal®-148 1.88 in. x 164 ft. Clear Insulation Seam Tape
- Small spatula

SITE PREP & PROCEDURE

1. Make sure all surfaces that SikaSeal®-148 Insulation Seam Tape will be applied to are sufficiently cured and free of moisture, frost, oils, dust, dirt and other debris or contaminants.
2. Apply SikaSeal®-148 Insulation Seam Tape evenly over the joint (e.g. wall sheathing, foam board insulation) or overlap seams (e.g. house wraps).
3. Smooth out any wrinkles in tape during installation. Tear at desired length.
4. Apply pressure over tape to yield more surface contact and create a better bond.
