TARGET MARKET ROOFING & WATERPROOFING

BUILDING TRUST

Subject: Sikaplan Product Line Simplification 24-05

To simplify the Sikaplan brand family of products for our customers, Sika' Roofing & Waterproofing Target Market is implementing several changes over the next few months.

Key Changes:

- 1. Rebranding: Sika is introducing Sikaplan Universal Membrane which replaces Sikaplan Fastened and Sikaplan Adhered membranes.** Sikaplan Universal is the same proven Sikaplan membrane with a polyester scrim reinforcement that will be used on both mechanically attached and adhered applications. With Sikaplan Universal, all warranty options, detailing, and third-party testing will be equivalent. Note: during the transition, some ongoing projects may receive both Sikaplan Fastened and Sikaplan Universal membranes.
- 2. Adhesives: We will discontinue Sikaplan Single-Step Membrane Adhesive once the current stock is depleted.** Moving forward, Sarnacol 2121 Membrane Adhesive will be the water-based adhesive option for both Sarnafil and Sikaplan PVC membranes.
- 3. Mechanical Attachment: Sikaplan fasteners and the Sikaplan Board Plate will be discontinued. The Sikaplan Disc (for in-seam attachment) and the Sikaplan Term Bar will continue to be sold.** All Sarnafasteners (or generic fasteners), Sarnaplates, and Sarnadiscs will be the securement options for both Sarnafil and Sikaplan membrane systems (except where those Sikaplan products noted above are still being sold).

These changes aim to streamline our Sikaplan product offerings and improve the overall customer experience.

Please reference the chart below for the exact products and product numbers being discontinued. If you have any questions, please contact your local Sika customer service agent.

| | |
|---|-----------------------|
| Membrane | |
| <u>Discontinued</u> | <u>Current Option</u> |
| Sikaplan Fastened (all thicknesses, feltback, colors, etc.) | Sikaplan Universal |
