Subject: PV Policy and Owner Agreement update

A month ago we released a memo advising all employees that we would no longer require Pre-PV Inspections and that a new PV Policy had been updated to our Website to reflect the change. Please be advised that an updated, newer PV Policy as well as a new Owners Agreement (**both dated 11/13/2019**) reflecting our agreement with Solar Strap as an additional accepted racking/securement system, has been uploaded to the website for your use. Please discard any previous versions of the PV Policy or Owners Agreement you may be using immediately and use the ones available on our website instead.
