

SIKAFLEX®-510 AM50

LOW-MODULUS SEALANT

Sikaflex®-510 AM50 is a one component high movement Silane Terminated Polymer (STP) sealant that cures on exposure to atmospheric humidity. It is well suited for applications that require both paintability and adhesion to non-porous substrates. Sikaflex®-510 AM50 can be used for joints or gaps connecting dissimilar substrates such as vinyl to concrete or aluminum to EIFS.

PRODUCT BENEFITS

- Good UV and weathering resistance
- Excellent adhesion to porous and non-porous substrates
- Paintable after formation of skin
- Isocyanate free
- ASTM C920 for Type S, Grade NS, Class 50
- Ideal for joints or gaps connecting dissimilar substrates
- Conveniently available in both 300 mL cartridges and 600 mL unipacks
