

Sarnafil®

ROOFPOINT™ REGISTERED PROJECT

San Diego County Operations Center *San Diego, California*

PROJECT DESCRIPTION

The new San Diego County Operations Center is designed to be a symbol of sustainability for all of San Diego, and the building's roofing system features every key RoofPoint strategy available for building designers.

In addition to a roof designed to provide the ultimate in performance and life cycle endurance, this unique roof features a rooftop terrace, a vegetated green roof, and photovoltaic solar panel array on trellises, which also serve to produce shading.

ABOUT ROOFPOINT

RoofPoint is a voluntary, consensus-based green rating system developed by the Center for Environmental Innovation in Roofing to provide a means for roofing contractors, building managers and designers to select roof systems based on long-term energy and environmental benefits. RoofPoint provides a simple, transparent and professional measure to validate that new and replacement roof systems are designed, installed and maintained in accordance with the most current sustainable best practices.
