

SIKA AT WORK

University of Pennsylvania Perry World House

LIQUID APPLIED ROOFING & WATERPROOFING

Waterproofing with Sikalastic®-644 Lo-VOC RoofPro

BUILDING TRUST

PROJECT DESCRIPTION

The University of Pennsylvania (UPenn) chose various Sikalastic RoofPro products on several other campus projects previously and had seen the problems that RoofPro was able to solve. When faced with a leaking roof over the very prominent Perry World House, they knew exactly who to call to get the job done right. Sika maintains a great relationship with the university, specifier and the approved contractor so providing a 20 year, single source warranty was an easy choice for everyone. Before the repairs, the Perry World House won two prestigious awards: the AIA New York State 2017 Design Award, Award of Citation and the 2017 Architizer A+ Awards, Popular Choice: Higher Education & Research Facilities. So, not only did the leaks in roof need to be stopped, but the superior looking roof had to maintain its award-winning aesthetics! Through the combination of Sika Reemat and Fleece Reinforcement, Sika and the approved applicator were able to provide a 20 year, fully reinforced system that kept the look of the original design.

PROJECT SOLUTIONS

Sikalastic® 644 Lo-VOC
Sika® 140 Fleece
Sika Flexitape Heavy
Sika Premium Reremat Reinforcement
Sikaflex® 11 FC

PROJECT PARTICIPANTS

OWNER: University of Pennsylvania
