- **LEED v4.0 READY** Easily meet EPD requirements for any mix design.
- **RESPONSIVE** Instantly produce new EPDs for new custom mixes.
- **CURRENT** New suppliers and plant process changes are captured and used for all new EPDs.

SIKA® EPD NOW

MORE VALUE, LESS IMPACT

The Sika® EPD NOW system enables concrete producers to generate a fully verified mix specific Environmental Product Declaration (EPD) in seconds from a web browser, a smart phone or from Command QC. The product enables producers to design innovative new mixes to meet requirements for any job. A one time set up fee and an annual subscription provides unlimited EPDs at a fraction of the cost of traditional EPDs.

SYSTEM FEATURES:

- Unlimited EPDs
- Annual Database Update
- Easy to Use Web App
- Optional Command QC Connect

APPROXIMATE TIME REQUIRED: 90-120 days • VERIFICATION: 2-4 weeks

EPD NOW powered by Climate Earth helped us achieve two major initiatives. We were first in our industry to offer Environmental Product Declarations, and now we are first to integrate EPD data into COMMAND QC, a core business system, furthering our company-wide commitment to sustainable construction.

-Jeff Davis, Vice President, US Concrete
