SIKA FRP TRAINING POSTPONED

May 10, 2022

We regret to inform you that, due to extenuating circumstances, Sika Corporation will have to postpone our in-person FRP Training Program scheduled for May 17, 2022 in Lyndhurst, NJ.

We have decided to hold a digital training through our WebEx platform on the same day from 9-12 where only those registered (and their guests) will be allowed access. While we understand this is not a replacement for hands on training, we hope we can still provide some knowledge and insight into this exciting application.

We do plan to reschedule the in-person training for later in the year and hope you will be able to attend but unfortunately the date has yet to be determined.

We hope you can accept our sincerest apologies for any inconvenience this has caused. As a small token of our appreciation for your continued support, please see a link to an Amazon egift card.

Should any additional questions arise, please feel free to reach out directly to discuss further.

Sincerely,

A handwritten signature in black ink that reads "S.D. DiStefano". The signature is written in a cursive, flowing style.
