

SikaBond® Mammoth® Crystal

TRANSPARENT, DOUBLE-SIDED CONSTRUCTION TAPE

WHERE TO USE

- Bonding glass, metals, concrete, wood, many plastics, etc.
- Hooks, hangers, holders for home improvement applications, partitions, window or door frames, signs, cladding panels & more
- Excellent for bonding transparent and translucent materials when an invisible bond line is required
- Interior & exterior applications

ADVANTAGES

- Crystal clear acrylic foam tape
- Double-sided, easy to apply & multi-purpose use
- Broad application range
- Good anti-vibration and shock absorption properties
- Replaces mechanical fasteners or liquid adhesives
- High bond strength and permanent bonding
- Pressure sensitive, allowing immediate handling strength
- High UV and chemical resistance
