

SikaBiresin® AP077

(Formerly Adtech Marine P-77)

POLYESTER FILLER - SANDABLE, STYRENE-FREE, HIGH TEMPERATURE

Quick Notes

PRODUCT POSITION STATEMENT

SikaBiresin® AP077 is a polyester filler that offers the user a smooth workable paste with a set-fast cure to expedite those applications for repair or finish.

PRODUCT TECHNOLOGY

- Two-component (polyester paste + BPO hardener)

PRODUCT BENEFITS

- Easy to apply
- Easy to sand
- High heat-resistance of 400°F (209°C)
- Accepts virtually all types of finishes
- Low moisture absorption for above or below the waterline applications
- Minimal shrink or sink upon cure
- Bonds to epoxy, vinyl ester, polyester, and many other substrates
- Quick-set cure and finishing time

APPLICATION

- Gelcoat and blister repair
- Repair of damaged fiberglass parts
- Filling cloth imprint on FRP panels
- Edge filling on honeycomb panels
