LOW VISCOSITY METHYL-METHACRYLATE PRIMER FOR CONCRETE

PRODUCT DESCRIPTION

Sikafloor®-41 P Pronto is a methyl-methacrylate (MMA) primer for use within the Sikafloor® Pronto flooring systems. Sikafloor®-41 P Pronto is a solvent free, 2-component, 100% reactive, low viscosity primer. Sikafloor®-41 P Pronto has superior penetration and is ideal for adhesion to concrete surfaces. Every Sikafloor® Pronto flooring system is a multiple-component system that utilizes a methyl-methacrylate (MMA) resin. It is critical that the instructions listed in the Safety Data Sheet and on the product label for every component of the system be read, understood, and followed. MMA resins are flammable liquids in their uncured state. Smoking, open flames or sparks should not be permitted during the handling of the product. Explosion-safe ventilation must be used during the application to minimize vapor collection in the installation area and to improve overall air quality for the crew. All foodstuffs must be removed during installation of the flooring system.
